

Community Land Register

The Local Government Act 1999 requires Council to keep a register of all community land in the district. All local government land (except roads) that is owned by Council or is under its care, control and management, is classified as community land unless it has been specifically excluded from that classification by Council.

The following extracts from the Local Government Act 1999 and Local Government (General) Regulations 2013 provide a general understanding the requirements for the preparation of a register of community land as it applies to Councils.

Register of Community Land

Section 207 – Register

- (1) A council must keep a register of all community land in its area.
- (2) The register-
 - (a) must contain the information required by the regulations; and
 - (b) must contain copies of current management plans; and
 - (c) may consist (if the council so decides) of a computer record of the relevant information.

Regulations – Section 23 – Register of Community Land

For the purposes of section 207(2)(a) of the Act, a register of community land under that section must contain, in respect of each piece of community land in the area-

- (a) the legal description of the land (being, in the case of land that has been brought under the provisions of the *Real Property Act 1886*, the Certificate of Title Register Book Volume and Folio Numbers); and
- (b) the street address of the land (if any); and
- (c) the name of the locality or suburb in which the land is situated; and
- (d) the name by which the land is commonly known (if any); and
- (e) the area of the land; and
- (f) the name of the owner of the land (see sections 4 and 189 of the Act); and
- (g) the following details concerning any lease or licence granted over the land:
 - (i) the name of the lessee or licensee;
 - (ii) the term of the lease or licence (including information on the term of any extension or renewal stated in the lease or licence);
 - (iii) the actual land to which the lease or licence relates (which may be identified by a plan kept in conjunction with the register);
 - (iv) the purpose for which the lease or licence has been granted.¹

Note—

- 1 The register must also contain copies of current management plans—see section 207(2)(b) of the Act.
